

Military Equipment

709.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the approval, acquisition, and reporting requirements of military equipment (Government Code § 7070; Government Code § 7071; Government Code § 7072).

709.1.1 DEFINITIONS

Definitions related to this policy include (Government Code § 7070):

Governing body –The Ventura County Board of Supervisors which is the elected body that oversees the Ventura County Sheriff's Office.

Military equipment – Includes but is not limited to the following:

- Unmanned, remotely piloted, powered aerial or ground vehicles.
- Mine-resistant ambush-protected (MRAP) vehicles or armored personnel carriers.
- High mobility multipurpose wheeled vehicles (HMMWV), two-and-one-half-ton trucks, five-ton trucks, or wheeled vehicles that have a breaching or entry apparatus attached.
- Tracked armored vehicles that provide ballistic protection to their occupants.
- Command and control vehicles that are either built or modified to facilitate the operational control and direction of public safety units.
- Weaponized aircraft, vessels, or vehicles of any kind.
- Battering rams, slugs, and breaching apparatuses that are explosive in nature. This does not include a handheld, one-person ram.
- Firearms and ammunition of .50 caliber or greater, excluding standard-issue shotguns and standard-issue shotgun ammunition.
- Specialized firearms and ammunition of less than .50 caliber, including firearms and accessories identified as assault weapons in Penal Code § 30510 and Penal Code § 30515, with the exception of standard-issue firearms.
- Any firearm or firearm accessory that is designed to launch explosive projectiles.
- Noise-flash diversionary devices and explosive breaching tools.
- Chemical agents containing tear gas or OC, excluding standard, service-issued handheld pepper spray.
- TASER® Shockwave, microwave weapons, water cannons, and long-range acoustic devices (LRADs).
- Kinetic energy weapons and munitions.
- Any other equipment as determined by a governing body or a state agency to require additional oversight.

Military Equipment

709.2 POLICY

It is the policy of the Ventura County Sheriff's Office that members of this department comply with the provisions of Government Code § 7071 with respect to military equipment.

709.3 MILITARY EQUIPMENT COORDINATOR

The Special Services Commander will act as the military equipment coordinator. The responsibilities of the military equipment coordinator include but are not limited to:

- (a) Acting as liaison to the governing body for matters related to the requirements of this policy.
- (b) Identifying department equipment that qualifies as military equipment in the current possession of the Department, or the equipment the Department intends to acquire that requires approval by the governing body.
- (c) Conducting an inventory of all military equipment at least annually.
- (d) Collaborating with any allied agency that may use military equipment within the jurisdiction of Ventura County Sheriff's Office (Government Code § 7071).
- (e) Preparing for, scheduling, and coordinating the annual community engagement meeting to include:
 - 1. Publicizing the details of the meeting.
 - 2. Preparing for public questions regarding the department's funding, acquisition, and use of equipment.
- (f) Preparing the annual military equipment report for submission to the Sheriff and ensuring that the report is made available on the department website (Government Code § 7072).
- (g) Establishing the procedure for a person to register a complaint or concern, or how that person may submit a question about the use of a type of military equipment, and how the Department will respond in a timely manner. This information will be posted on the Sheriff's website along with this policy.

709.4 MILITARY EQUIPMENT INVENTORY

The following constitutes a list of qualifying equipment for the Department

SEE SECTION 709.11

709.5 APPROVAL

The Sheriff or the authorized designee shall obtain approval from the governing body by way of an ordinance adopting the military equipment policy. As part of the approval process, the Sheriff or the authorized designee shall ensure the proposed military equipment policy is submitted to the governing body and is available on the department website at least 30 days prior to any public hearing concerning the military equipment at issue (Government Code § 7071). The military equipment policy must be approved by the governing body prior to engaging in any of the following (Government Code § 7071):

Military Equipment

- (a) Requesting military equipment made available pursuant to 10 USC § 2576a.
- (b) Seeking funds for military equipment, including but not limited to applying for a grant, soliciting or accepting private, local, state, or federal funds, in-kind donations, or other donations or transfers.
- (c) Acquiring military equipment either permanently or temporarily, including by borrowing or leasing.
- (d) Collaborating with another law enforcement agency in the deployment or other use of military equipment within the jurisdiction of this department.
- (e) Using any new or existing military equipment for a purpose, in a manner, or by a person not previously approved by the governing body.
- (f) Soliciting or responding to a proposal for, or entering into an agreement with, any other person or entity to seek funds for, apply to receive, acquire, use, or collaborate in the use of military equipment.
- (g) Acquiring military equipment through any means not provided above.

709.6 COORDINATION WITH OTHER JURISDICTIONS

On occasion, the Ventura County Sheriff's Office may be required to assist or be assisted by other law enforcement agencies in a formal law enforcement mutual aid request or in support of day to day operational collaboration. In those circumstances, it may be necessary for members to utilize military equipment in order to fulfill an assigned mission. When this occurs, the following shall apply:

- (a) Members of the Ventura County Sheriff's Office are required to adhere to this policy, regardless of the operational jurisdiction.
- (b) Should members of the Ventura County Sheriff's Office request mutual aid from another law enforcement agency and military equipment is required during the course of the response, the following shall apply:
- (c) The Ventura County Sheriff's Office shall remain in charge of the overall incident command.
 - 1. The incident commander or designee shall brief the supervisor from the assisting agency and inform them of the mission, enforcement posture, and any pertinent information related to the incident.
 - 2. Members of the assisting agency will be expected to adhere to their respective policies and procedures, particularly those governing the use of military equipment.
 - 3. If the incident commander or designee is informed of or witnesses the utilization of military equipment by an assisting agency which is inconsistent with the guidelines set forth in this procedure, the incident commander may elect to cancel the request for mutual aid or re-assign the assisting agency to a different support mission.

Military Equipment

709.7 ANNUAL REPORT

Upon approval of a military equipment policy, the Sheriff or the authorized designee should submit a military equipment report to the governing body for each type of military equipment approved within one year of approval, and annually thereafter by July 1st of each year for as long as the military equipment is available for use (Government Code § 7072).

The Sheriff or the authorized designee should also make each annual military equipment report publicly available on the department website for as long as the military equipment is available for use. The report shall include all information required by Government Code § 7072 for the preceding calendar year for each type of military equipment in department inventory.

709.8 COMMUNITY ENGAGEMENT

At least 30 days prior to the governing body review of the annual report, the Department shall post the report on their website. Within 30 days of that posting and prior to the governing body review, the Department shall hold at least one well-publicized and conveniently located community engagement meeting, at which the Department should discuss the report and respond to public questions regarding the funding, acquisition, or use of military equipment.

709.9 TEST AND EVALUATION OF MILITARY EQUIPMENT

While the Department's current inventory of military equipment is wide ranging and versatile, advancement in technology, tactics, and operational effectiveness may necessitate the expansion or complete replacement of certain items of military equipment.

From time to time, certain equipment vendors and/or manufacturers may loan certain military equipment items to the Ventura County Sheriff's Office for testing by various units to conduct assessments of their products. This process is commonly referred to as "testing and evaluation." During this process, various units and/or subject matter experts conduct assessments of the equipment to determine whether or not the equipment should be considered for purchase. In these circumstances, the Ventura County Sheriff's Office will only use the loaned equipment in a training environment and will not deploy any equipment that is inconsistent with this policy during enforcement action without the approval of the Sheriff and the Board of Supervisors.

709.10 INTENTION TO ACQUIRE ADDITIONAL MILITARY EQUIPMENT

In order to maintain essential availability of needed equipment for operational efficiency and training, the Ventura County Sheriff's Office intends to replenish the stock of the below listed categories of equipment throughout the year. These are perishable items which have a shelf life and/or are consumed through deployment in law enforcement activities and/or training. The Ventura County Sheriff's Office is not seeking additional funds for these purchases as they have historically been made through the existing budgets.

- (a) Breaching rounds
- (b) Rifle ammunition, including 5.56mm,.223 mm,.308 caliber and.50 caliber
- (c) Noise-flash diversionary devices

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- (d) Chemical agents containing tear gas or OC, including chemical agent canisters and Pepperball projectiles
- (e) Kinetic energy munitions, including 40mm rounds and beanbag rounds
- (f) Simunition training rounds

709.11 MILITARY EQUIPMENT INVENTORY

Unmanned, remotely piloted, powered aerial or ground vehicles:

- **Remotely piloted aerial vehicle (RPAV):** Battery operated, remotely piloted, aerial vehicles capable of providing live and recorded video images captured from aerial positions.
 - Legal and Procedural Rules
 - The use is established under FAA Regulation 14 CFR Part 107. It is the policy of the Ventura County Sheriff's Office to utilize RPAV's only for official law enforcement purposes, and in a manner that respects the law and privacy of our community, pursuant to the Ventura County Sheriff's Unmanned Aircraft Systems Operations Manual, Ventura County Sheriff's Office Policy 419 – Aircraft Accidents, State and Federal law, and FAA regulations.
 - Training:
 - Assigned operators must be licensed by the Federal Aviation Administration (FAA). In addition, each operator receives additional monthly training.
 - Fiscal Impact:
 - Approximately \$40,000 per year; primarily consisting of training, battery replacement, general maintenance and repairs.
 - Expected Life Span:
 - 3 to 5 years on all listed equipment
 - Purpose/Authorized Use:
 - These devices may be deployed when an aerial view would assist members of the Sheriff's Office with investigations, including missing persons searches, vehicle collisions, natural disaster management, crime scene evidence collection, public safety, high-risk apprehension of armed violent suspects, and other life-saving missions. Sheriff's Emergency Services also utilizes them for disaster prevention, protection, mitigation, response, and recovery.
 - Description / Quantity / Purchase Cost / Capabilities:
 - **DJI Mavic 3T**
 - Quantity: 12
 - \$5,500 per unit
 - The Mavic 3 is a powerful flagship camera drone equipped with two

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

cameras and a 3-axis gimbal. The 20MP wide-angle 4/3 CMOS Hasselblad camera and the 12MP telephoto 1/2 CMOS cameras facilitate professional-level imaging. Weighing less than two pounds, the Mavic 3 is capable of approximately 40 minutes of flight time.

- **DJI Matrice 30T**

- Quantity: 4
- \$10,000 per unit
- The Matrice 30T quadcopter has a weatherproof design to withstand the harshest of environments. It integrates a 48MP 1/2" CMOS sensor-zoom camera with 5x-16x optical and 200x digital zoom, and is capable of approximately 40 minutes of flight time.

- **DJI Avata**

- Quantity: 2
- \$1,600 per unit
- The Avata quadcopter is a compact and light weight device equipped with propeller guards so it can be used indoors. It provides a single 4K camera and is capable of approximately 18 minutes of flight time.

- **DJI Mini 4 Pro**

- Quantity: 4
- \$1,160 per unit
- Weighing less than 249 g, the Mavic Mini 4 Pro supports 12MP aerial photos and 4K HD videos. A 3-axis motorized gimbal provides superior camera stability and ensures clear, ultra-smooth footage. It's capable of approximately 30 minutes of flight time.

- **DJI Mavic 3E**

- Quantity: 1
- \$5,800 per unit
- The DJI Mavic 3E is designed for surveying, mapping, and inspections. It features a 56x zoom camera, a mechanical shutter, and an RTK module for centimeter-level precision. It's capable of approximately 45 minutes of flight time.

- **Remotely piloted ground vehicle (RPGV):** Battery operated, remotely piloted, ground vehicles capable of capturing live and recorded video images.

- Legal and Procedural Rules

- All listed devices are utilized only for official law enforcement purposes, and in a manner that respects the privacy of our community, pursuant to Ventura County Sheriff's Office Policy 411 – Response to Bomb Calls, Ventura County Sheriff's Office Policy 405 – SWAT Team Activation, State and Federal law.

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- Training:
 - All assigned operators of Bomb Team must complete the FBI's 6-week hazardous device school prior to operating the listed bomb robot devices.
 - Members of the SWAT Team receive formalized instruction and are trained in device operations and practical remote operation instruction for the RoboteX Avatar.
- Fiscal Impact:
 - Approximately \$2,000 per year; primarily consisting of battery replacement, general maintenance and repairs.
- Expected Life Span:
 - 8 to 10 years
- Purpose/Authorized Use
 - These machines are used to remotely gain visual/audio data, carry equipment, open doors, facilitate disposal of hazardous devices and clear buildings without exposing deputies to hazardous situations. They may be deployed during high risk situations such as searches for wanted subjects, barricaded subjects and hostage rescues. They may also be used to inspect hazardous materials, possible explosive devices and other hazardous situations.
- Description / Quantity / Purchase Cost / Capabilities:
 - **iRobot Packbot 510**
 - Quantity: 3
 - Military surplus items obtained at no cost from the Defense Logistics Agency's 1033 Program.
 - The iRobot Packbot 510 is a man-transportable robot that performs bomb disposal, surveillance, reconnaissance, and HazMat handling operations, including chemical, biological, radiological and nuclear (CBRN) detection. It easily climbs stairs and navigates narrow passages while relaying real-time audio/video and sensor data while the operator remains at a safer standoff distance.
 - **Remotec F6B Bomb Robot**
 - Quantity: 1
 - \$250,000
 - The Remotec F6B is a versatile, heavy-duty robot. Speed and agility unite to make it the first choice for a wide range of missions, and its proven stair climbing ability, rugged and dependable chassis, and an arm capable of lifting mean it's capable of handling any task. It also offers multiple communication options, a chassis and manipulator that allow for many accessories and tool combinations, and quick-release pneumatic wheels for rapid width reduction.
 - **Remotec HD-1 Bomb Robot**
 - Quantity: 1 (no longer in use)

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- This item was provided to the Ventura County Sheriff's Office by the Federal Bureau of Investigation in 2010. It is no longer being used and is in the process of being returned through the procurement process.
- The Remotec Andros HD-1 is a versatile robot with top speeds of over 4 MPH while weighing just over 200 pounds. It can reach tight spaces and go over or under obstacles, providing the ultimate mission flexibility. It is equipped with a 360 degree rotation arm, integrated microphone, speakers, lighting system, and forward-looking infrared options.
- **Vanguard Digital Bomb Robot**
 - Quantity: 2 (No longer in use)
 - \$150,000 per unit
 - The Vanguard Digital robot is a rugged, lightweight machine with a mission duration of two to four hours. It has a telescopic arm and an intuitive laptop-based controller. Its modular construction enables allows it to be re-purposed into alternative roles and makes maintenance and support in the field simple and inexpensive.
- **ICOR Mini-Caliber Tactical Robot**
 - Quantity: 1
 - \$64,000 per unit
 - Funded through the Homeland Security Grant made available in 2023
 - The ICOR Mini-Caliber robot is designed for rapid tactical missions. The robot is simple to operate and quick to deploy for searching room, hallways, stairwells and confined spaces. With rubber tracks and articulating front and rear flippers, the Mini-Caliber effortlessly climbs stairs. It also has an extendible rotating claw arm that simplifies opening door handles.

Mine-resistant ambush-protected (MRAP) vehicles or armored personnel carriers:

- **Armored Vehicle:** Commercially produced armored personnel vehicle utilized for law enforcement purposes.
 - Legal and Procedural Rules
 - These vehicles shall only be used for official law enforcement purposes, and pursuant to Ventura County Sheriff's Office Policy 405 – SWAT Team Activation, as well as State and Federal law.
 - Operators must possess a valid California Class C driver license.
 - Training:
 - Operators must attend formalized instruction and training on the deployment and use of the vehicle.
 - Fiscal Impact:
 - Approximately \$10,000 annually; primarily consisting of general maintenance, repairs, and training.

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- Expected Life Span:
 - 20 years
- Purpose/Authorized Use:
 - These vehicles are to be used during critical incidents to support tactical operations and provide safe transport, security and rescue of department personnel and members of the public. They may also be used during disaster-related emergencies, search and rescue operations, and terrorism preparedness, protection, and response.
- Description / Quantity / Purchase Cost / Capabilities:
 - **LENCO Bearcat**
 - Quantity: 1
 - \$242,545
 - The LENCO Bearcat is the standard tactical armored vehicle for special operations units within the US law enforcement community. It's a four-wheeled drive armored vehicle that has excellent on-road driving characteristics and maneuverability in tight urban settings. The large open floor plan is capable of carrying approximately 10 fully equipped deputies.
 - **LENCO Medcat (Advanced Medical Rescue Vehicle)**
 - Quantity: 1
 - \$324,000 (Donated by Direct Relief)
 - The LENCO MedEvac is a four-wheel drive armored vehicle equipped to provide tactical EMS with a safe and effective environment to deal with trauma cases. It is equipped with two tactical litters and ample interior compartments for medical supplies and gear storage.

High mobility multipurpose wheeled vehicles (HMMWV), two-and-one-half-ton trucks, five-ton trucks, or wheeled vehicles that have a breaching or entry apparatus attached:

- **High Mobility Multipurpose Wheeled Vehicle (HMMWV):** A four-wheel drive vehicle utilized to gain access to areas regularly deployed emergency vehicles cannot access.
 - Legal and Procedural Rules
 - This vehicle shall only be utilized for official law enforcement purposes, and pursuant to Ventura County Sheriff's Office Policy 314 – Search and Rescue, Ventura County Sheriff's Office Policy 703 – Vehicle Use, State and Federal law.
 - Operators must possess a valid California Class C driver license.
 - All assigned operators shall attend instruction in HMMWV operations and practical HMMWV driving instruction.
 - Fiscal Impact:
 - Approximately \$3,000 per year; primarily consisting of general maintenance and repair.

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- Expected Life Span:
 - 20 years
- Purpose/Authorized Use:
 - This vehicle is highly mobile with the capacity to travel over difficult terrain. It is intended to perform rescue missions in areas that are not accessible by traditional first responder vehicles. It may also be used during other emergencies, such as active shooter or hostage scenarios, or antiterrorism preparedness, protection, and response.
- Description / Quantity / Purchase Cost / Capabilities:
- **AM General HMMWV (AKA: Humvee)**
 - Quantity: 1
 - Military surplus items obtained at no cost from the Defense Logistics Agency's 1033 Program
 - The AM General HMMWV is an expanded capacity command and control or general purpose vehicle. This high mobility multipurpose wheeled vehicle is a lightweight, high-performance, diesel powered four-wheel drive vehicle specifically designed to be highly mobile with the capacity to travel over difficult terrain. It can transport up to four passengers.
- **Light Medium Tactical Vehicle (LMTV) 4x4 Utility Truck:** A truck with a high clearance chassis designed to transport cargo and people to and from disaster or flood areas.
 - Legal and Procedural Rules
 - This vehicle shall only be used for official law enforcement purposes, and pursuant to Ventura County Sheriff's Office Policy 314 – Search and Rescue, Ventura County Sheriff's Office Policy 703 – Vehicle Use, State and Federal law.
 - A California Class B driver license is required to operate this vehicle.
 - Training:
 - All assigned operators shall attend formalized instruction and be trained in vehicle operations and practical driving instruction.
 - Fiscal Impact:
 - Approximately \$4,000 per year. The cost includes general maintenance and repair.

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- Expected Life Span:
 - 20 years
- Purpose/Authorized Use:
 - This vehicle is intended to perform rescue missions in areas not accessible by traditional first responder four-wheel drive vehicles during natural disasters such as flood and/or mudslide incidents. It may also be used during other emergencies, such as active shooter or hostage scenarios, and antiterrorism preparedness, protection, and response.
- Description / Quantity / Purchase Cost / Capabilities:
 - Stewart and Stevenson LMTV M1078
 - Quantity: 3 (1 no longer in use)
 - Military surplus items obtained at no cost from the Defense Logistics Agency's 1033 Program
 - The Stewart and Stevenson LMTV M1078 has a CAT 3116 turbo diesel engine with a 2.5 ton payload. It was designed as a four-wheel drive vehicle with high ground clearance and is capable of carrying several people and equipment.

Tracked armored vehicles that provide ballistic protection to their occupants:

- **NIJ Level IV Armored Caterpillar (CAT) Multi-Terrain Loader ("ROOK"):** The ROOK is an armored tractor vehicle used during critical incidents to breach entry points, move law enforcement personnel, perform rescues and provide protection to those involvement in the critical incident
- Description / Quantity / Purchase Cost / Capabilities:
 - **ROOK – Modified CAT compact track loader chassis**
 - Quantity: 1
 - \$332,475 (\$300,000 funded by two Cal OES grants)
 - The ROOK is an armored Caterpillar tractor vehicle with mission specific attachments that increase public safety and protect deputies. It operates on tracks which provide much greater ground contact area and weight distribution than a vehicle operating on tires. It also contains external cameras that can be seen by the operator and transmitted to a command center.
 - Attachments: The custom built Armored Deployment Platform (ADP) includes a sloping partial roof cover and floor-to-roof front shield. The ADP provides room for up to four fully-dressed deputies and is equipped with gun ports. It can be raised to 11 feet so that entry can be made on the first or second floor of a building. The Hydraulic Breaching Ram (HBR) attachment can deliver up to 6,500 psi of pressure and much more power than a traditional hand-carried ram. It can be extended six to 10 feet in order to provide a controlled breach of walls, doors and windows. The Grapple Claw can be utilized to gain access to areas where suspects may be trying to hide. With 4,500 pounds of lifting capacity, the grapple claw can be

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

used to remove fortified doors, burglar bars or exterior shrubbery. It can also be used in disaster relief efforts with the ability to remove debris from streets for emergency responders' access. The Vehicle Extraction Tool was fabricated for powerful use in the immobilization or removal of a vehicle in tactical applications. The tool can be used to push, pull or lift a parked vehicle to render it immobile or move it to a safe location.

- Purpose/Authorized Use:
 - Legal and Procedural Rules
 - Armored vehicles shall only be used for official law enforcement purposes, and pursuant to Ventura County Sheriff's Office Policy 405 – SWAT Team Activation, Ventura County Sheriff's Office Policy 314 – Search and Rescue, and pursuant to State and Federal law.
 - A California Class A driver license is required to operate this vehicle.
 - Training:
 - All assigned operators shall attend formalized instruction and be trained in vehicle operations and practical driving instruction.
 - Fiscal Impact:
 - Approximately \$9,000 annually; primarily consisting of training, general maintenance and repair.
 - Expected Life Span:
 - Approximately 20 years
 - The Rook may be utilized during SWAT and/or Bomb Unit deployments when there's a need for its defensive ballistic protection, rescue platforms for elevated structure response, and ability to navigate rough terrain environments where other equipment would be limited. It may also be used during incidents such as natural disasters and can be used to stabilize critical infrastructure and functions to minimize health and safety threats during a critical incident, including mass casualty events or terrorist attacks.
 - The ROOK is only to be utilized during authorized SWAT deployments or in response to a natural disaster.

Command and Control vehicles that are either built or modified to facilitate the operational control and direction of public safety units:

- **Mobile Incident Command Vehicle (MIC):** A mobile incident command vehicle is an operational command center that is used during critical incidents and pre-staged events. It provides shelter and is equipped with specialized command, control and communication equipment.
 - Legal and Procedural Rules
 - The listed vehicles may only be used for official law enforcement purposes, and pursuant to Ventura County Sheriff's Office Policy 703 – Vehicle Use, Ventura County Sheriff's Office Policy 405 – SWAT Team Activation,

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

Ventura County Sheriff's Office Policy 406 – Tactical Response Team Activation, State and Federal law.

- Certain MIC vehicles in possession of the Sheriff's Office require a California Class B Commercial license.
- Training:
 - All assigned operators attend formalized instruction and are trained in vehicle operations and practical driving instruction.
- Fiscal Impact:
 - Approximately \$20,000 annually; primarily consisting of communication equipment, general maintenance and repairs.
- Expected Life Span:
 - Approximately 15 to 20 years. Upgrades for information technology and communication systems are needed approximately every 5 to 10 years.
- Purpose:
 - The vehicles are used during critical incidents or preplanned events to serve as mobile command centers that offer meeting space, telecommunication capabilities and access to equipment needed by Sheriff's Office personnel.
- Description / Quantity / Purchase Cost / Capabilities:
 - **2020 Frontline Communications MIC**
 - Quantity: 2
 - \$1,100,000 per unit
 - Frontline Communications builds the vehicles that help public safety members coordinate multiple teams and respond with confidence. These 45' mobile command centers have an integrated electrical system for maximum operator control, slide-out sections to expand interior space, ergonomically designed driver controls and workstations, and robust power control panels.
 - These new vehicles replaced the former West County and East County command posts.
 - **2003 Freightliner MIC - SWAT**
 - Quantity: 1
 - \$174,838.19
 - This custom built 29' Freightliner serves as the SWAT command vehicle. It is a non-armored vehicle utilized by SWAT personnel as a mobile command post. It is also used to transports various equipment for deployments/critical incidents and pre-planned events.
 - **2010 Pace Trailer – Ojai Search & Rescue Command Post**
 - Quantity: 1

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- \$12,900
- 20' enclosed cargo trailer equipped with specialized command, control and communication equipment. It serves as the Ojai Search & Rescue (SAR) command post and is also used to transport various equipment for SAR related incidents and pre-planned events.
- **2012 Pace Trailer – East County Search & Rescue Command Post**
 - Quantity: 1
 - \$15,100
 - 20' enclosed cargo trailer equipped with specialized command, control and communication equipment. It serves as the East County Search & Rescue (SAR) command post and is also used to transport various equipment for SAR related incidents and pre-planned events.

Weaponized aircraft, vessels, or vehicles of any kind:

- None in the possession of the Sheriff's Office

Battering rams, slugs, and breaching apparatuses that are explosive in nature. This does not include a handheld, one-person ram:

- **Explosive Breaching Tool:** Tools that are used to conduct an explosive breach to facilitate entry into a target location.
 - Legal and Procedural Rules
 - Explosive breaching tools may only be used for official law enforcement purposes, and pursuant to Ventura County Sheriff's Office Policy 405 – SWAT Team Activation, State and Federal law.
 - Training:
 - POST certified department instructors teach SWAT team members in the use of explosive breaching tools. SWAT Team members must also complete an 80 hours basic SWAT school prior to deploying an explosive breaching tool.
 - Fiscal Impact:
 - Approximately \$200 annually; primarily consisting of repair/part replacement to the shotgun and the purchase of additional breaching rounds.
 - Expected Life Span:
 - Breaching Shotgun: Approximately 20 years
 - Breaching Rounds: Approximately 5 years or until expended.
 - Purpose/Authorized Use:
 - During critical incidents, it may become necessary for the SWAT team to facilitate entry into a target location. A quick and effective breach is one key to a successful tactical mission. Therefore, it is critical that the point of entry is breached quickly and as safely as possible. Only trained members of the SWAT team may deploy a breaching shotgun.
 - Description / Quantity / Purchase Cost / Capabilities:

Military Equipment

- **Remington 870 Breaching Shotgun**
 - Quantity: 2
 - Approximately \$800 per unit
 - A modified 12-gauge shotgun used to breach door locks or hinges for entry during tactical operations that is designed to destroy the object it hits and then disperse into a fine powder to upon impact, eliminating fragmentation and mitigating the risk of injury to bystanders.
- **Defense Technology 12 Gauge Breaching Rounds**
 - Quantity: 6
 - Approximately \$7 per round
 - 12-gauge shell loaded with a compressed zinc slug, utilizing smokeless powder as a propellant, which is designed to disintegrate into a fine powder upon impact, eliminating fragmentation and mitigating the risk of injury to bystanders.
- **Kinetic Breaching Apparatus: A breaching tool that uses kinetic energy to defeat entry points such as doors and gates.**
 - Legal and Procedural Rules
 - Explosive breaching tools may only be used for official law enforcement purposes, and pursuant to Ventura County Sheriff's Office Policy 405 – SWAT Team Activation, State and Federal law.
 - Training:
 - All assigned operators shall attend formalized instruction in the use of kinetic breaching tools which shall be provided by members of the SWAT team.
 - Fiscal Impact:
 - Approximately \$200 annually; primarily consisting of repairs/part replacement and the purchase of additional cartridges.
 - Expected Life Span:
 - Approximately 20 years
 - Purpose/Authorized Use:
 - A quick and effective breach is one key to a successful tactical mission. During a critical incident or the service of a search warrant, it may become necessary to breach a door or gate to facilitate entry into a target location. Only trained members of the SWAT team or those in specialized investigative units who have received training by members of the SWAT team may deploy kinetic breaching tools.
 - Description / Quantity / Purchase Cost / Capabilities:
 - - **Kinetic Breaching Tool (KBT)**
 - Quantity: 9

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- \$11,000 per unit
- The KBT is a revolutionary mechanical breaching tool that bridges the gap between traditional mechanical breaching, shotgun breaching, and explosive entry. It utilizes a proprietary .45 caliber blank cartridge to deliver up to 850 foot/pounds of force through a hardened steel ram. Unlike explosive or shotgun breaching, all of the force is mechanically driven through a ram. This means that no projectile or explosive energy leaves the device except for the force of the ram which is permanently captured in the device. The ramming surface is narrow enough to focus on a single hinge, yet powerful enough to breach a steel security door. The KBT has an 8-shot cylindrical magazine that allows for multiple shots and also provides for rapid reload.

Firearms and ammunition of .50 caliber or greater, excluding standard-issue shotguns and standard-issue shotgun ammunition:

- **.50 Caliber Rifle and .50 Caliber Rifle Ammunition:** .50 caliber shoulder mounted rifles designed to have greater accuracy over a longer distance than other rifles. The .50 caliber rifle also provides greater penetration in situations where smaller caliber ammunition is ineffective due to armor protection.
 - Legal and Procedural Rules
 - Rifles and rifle ammunition may only be used for official law enforcement purposes, and pursuant to Ventura County Sheriff's Office Policy 300 – Use of Force, Ventura County Sheriff's Office Policy 306 – Firearms and Qualification, Ventura County Sheriff's Office Policy 405 – SWAT Team Activation, State and Federal law.
 - Training:
 - Sworn members utilizing rifles and rifle rounds are trained in their use with formalized instruction, including a California POST certified instruction course and regular range qualifications. Other than a shotgun, only SWAT Team members may deploy firearms and ammunition of .50 caliber or greater. SWAT Team members must also complete an 80 hours basic SWAT school prior to deploying this type of firearm or ammunition.
 - Fiscal Impact:
 - Approximately \$500 annually; primarily consisting of general maintenance on the rifle and purchase of additional ammunition.
 - Expected Life Span:
 - Listed Rifles: Approximately 15 years
 - Listed Rifles Rounds: Approximately 20 years
 - Purpose/Authorized Use:
 - To be used as a precision weapons to address a threat with more accuracy and from a greater distance than other rifles utilized by the Sheriff's Office. This rifle also provides greater penetration in situation where smaller caliber ammunition is ineffective due to armor protection. Only trained members of the SWAT team may deploy a .50 caliber rifle.

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- Description / Quantity / Purchase Cost / Capabilities:
 - **Barrett Model 99 Precision Rifle**
 - Quantity: 2
 - Approximately \$4000
 - With its brilliantly simple design, hard-core construction and surprisingly few moving parts, the 50 BMG Model 99 single shot bolt action rifle offers match-winning accuracy time and time again, and brings new levels of long-range precision shooting along with dependability and versatility.
 - **Federal AE.50 Caliber BMG Rifle Rounds**
 - Quantity: Approximately 878 rounds
 - Approximately \$40 per box of 10 rounds
 - For nearly a century, Federal Ammunition has put its focus on manufacturing quality products with cutting edge technology. This ammunition is loaded with a 660 grain full metal jacket bullet that features a velocity of up to 2910 fps.

Specialized firearms and ammunition of less than .50 caliber, including firearms and accessories identified as assault weapons in Penal Code § 30510 and Penal Code § 30515, with the exception of standard-issue handguns:

- Rifles and Ammunition: Shoulder mounted rifles under .50 caliber designed to have greater accuracy over a longer distance than handguns.
 - Legal and Procedural Rules
 - Rifles and rifle ammunition shall only be used for official law enforcement purposes, and pursuant to Ventura County Sheriff's Office Policy 300 – Use of Force, Ventura County Sheriff's Office Policy 306 – Firearms and Qualification, Ventura County Sheriff's Office Policy 405 – SWAT Team Activation, State and Federal law.
 - Training:
 - Sworn members utilizing rifles and rifle rounds are trained in their use with formalized instruction, including a California POST certified instruction course and regular range qualifications.
 - Fiscal Impact:
 - Approximately \$120 for each rifle; primarily consisting of repair and purchase of additional ammunition.
 - Expected Life Span:
 - SWAT Rifles: Approximately 10 years
 - Patrol Rifles: Approximately 15 years
 - Listed Rifles Rounds: Approximately 20 years or until expended
 - Purpose/Authorized Use:
 - Rifles of less than .50 caliber are precision weapons intended to address

Military Equipment

a threat with more accuracy and from a greater distance than a handgun, such as an encounter with an armed or barricaded suspect. They also provide greater penetration of soft body armor than a handgun.

- Only trained members of the SWAT team may deploy a fully automatic rifle, or a .308 caliber rifle.
- ° Description / Quantity / Purchase Cost / Capabilities:
 - **Colt M16A1 Rifles**
 - Quantity: 89
 - 89 rifles: Purchased for approximately \$1,250 per unit.
 - The classic M16A1 was the iconic rifle of the Vietnam War. It was issued to the vast majority of U.S. soldiers during the conflict and its general success in combat led to its continued service in the U.S. armed forces in varied forms over the years. A virtual match to the classic design, featuring the same unique triangular handguard, 20-inch pencil-profile chrome lined barrel with a 1/12-inch twist and recognizable carrying handle. These semi-automatic rifles are equipped with iron sights and are capable of firing 5.56mm and .223 caliber ammunition.
 - All patrol deputies and those in specialized investigative assignments are encouraged to receive training in order to carry a patrol rifle.
 - The military surplus M16 rifles are aged and due for replacement. The Sheriff's Office began reducing its inventory of the military surplus rifles over the last year by returning 188 to the federal government and transferring ownership of 5 additional to the Ventura County Community College District Police Department.
 - **SIONICS SAR-15 Patrol Rifles**
 - Quantity: 500
 - Approximately \$2,400 per unit
 - The Sionics Patrol Rifles feature a premium nitride barrel, and enhanced Mil-Spec Trigger, ambidextrous selectors and ambidextrous charging handles. These semi-automatic rifles are also equipped with Magpul MBUS Pro folding iron sights, lighting systems and optical sighting systems. They are capable of firing 5.56mm and .223 caliber ammunition.
 - All patrol deputies and those in specialized investigative assignments are encouraged to receive training in order to carry a patrol rifle.
 - **SIONICS SBR SWAT Edition Rifles**
 - Quantity: 28
 - Approximately \$2,909 per unit

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- The Sionics SBR SWAT Edition rifles feature a 10.75" M-LOK Rail, 11.5" premium nitride barrel, and enhanced trigger. These rifles have ambidextrous selectors, and Radian ambidextrous charging handles. These semi-automatic rifles are equipped with Surefire lighting devices as well as both iron sights and optical sighting systems. They are capable of firing 5.56mm and .223 caliber ammunition.
- These rifles are issued to members of the Sheriff's SWAT team.

■ **Colt M14 Rifles**

- Quantity: 7
- Military surplus items obtained at no cost from the Defense Logistics Agency's 1033 Program.
- The M14 rifle became the standard-issue rifle for the U.S. military in 1951, and continued until replaced by the M16 rifle in 1968. These semi-automatic rifles are equipped with iron sights and are capable of firing 7.62mm and .308 caliber ammunition.
- These rifles are only used by the Sheriff's Honor Guard for ceremonies, such as funerals and memorials. They are not deployed for enforcement purposes.

■ **Falkor Alpha 308 Rifles**

- Quantity: 5
- Approximately \$4200 per unit
- The Falkor Alpha 308 is a precision rifle to address a threat with more accuracy and from a greater distance than the 5.56mm or .223 caliber rifles deployed by the Sheriff's Office. This is one of the most innovative, accurate and reliable AR platform rifles on the market. It is built on solid billet aluminum chassis and features our Transition MLOK compatible rail, specifically designed to increase the strength and integrity of the union between the barrel and the upper receiver. This rifle is capable of firing .308 caliber ammunition.
- These rifles may only be deployed by members of the Sheriff's SWAT Team. SWAT Team members must complete an 80 hours basic SWAT school prior to deploying this rifle.

■ **Federal AE.223 Caliber 55 Grain Rifle Rounds**

- Quantity: Approximately 61,000 rounds
- Approximately \$200 per case of 500
- Federal 223 Remington ammunition features a lead core 55 grain full metal jacket bullet with a non-magnetic, non-corrosive boxer primer and a brass casing. The ammunition offers a muzzle velocity of 3240 fps.

■ **Hornady .223 Caliber 55 Grain Rifle Rounds**

- Quantity: Approximately 71,000 rounds

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- Approximately \$220 per case of 500
- Hornady .223 rifle ammunition features a lead core 55 grain full metal jacket bullet and a brass casing. The ammunition offers a muzzle velocity of 3240 fps.
- **Speer Gold Dot .223 Caliber 55 & 64 Grain Rifle Rounds**
 - Quantity: Approximately 18,500 rounds
 - Approximately \$400 per case of 500
 - Speer Gold Dot rifle ammunition is engineered to provide industry-leading performance. The jacket is bonded to the core one atom at a time, virtually eliminating core-jacket separation and creating a projectile that's accurate, tough and consistent through all common barriers. The ammunition offers a muzzle velocity of 3220 fps.
- **Speer Gold Dot .308 Caliber 168 Grain Rifle Rounds**
 - Quantity: Approximately 20,500 rounds
 - Approximately \$265 per case of 200
 - Speer Gold Dot rifle ammunition is engineered to provide industry-leading performance. The jacket is bonded to the core one atom at a time, virtually eliminating core-jacket separation and creating a projectile that's accurate, tough and consistent through all common barriers. The ammunition offers a muzzle velocity of 2650 fps.
- **Hornady .308 Caliber Winchester 168 Grain Rifle Rounds**
 - Quantity: Approximately 6,500 rounds
 - Approximately \$280 per case of 200
 - Hornady .308 ammunition features a lead core 168 grain bullet with a heat resistant polymer tip and a brass casing. The ammunition offers a muzzle velocity of 2512 fps.

Any firearm or firearm accessory that is designed to launch explosive projectiles:

- None in the possession of the Sheriff's Office

Noise-flash diversionary devices and explosive breaching tools:

- Distraction Device: A less-lethal explosive device that emits an extremely loud band and bright lights to disorient a potentially dangerous suspect during a critical incident.
 - Legal and Procedural Rules
 - Noise-flash diversionary devices may only be used for official law enforcement purposes, and pursuant Ventura County Sheriff's Office Policy 300 – Use of Force, Ventura County Sheriff's Office Policy 405 – SWAT Team Activation, State and Federal law.
 - The below listed noise-flash diversionary devices may only be deployed by trained members of the SWAT team who have received training

Military Equipment

within the last 12 months.

- Training:
 - POST certified instructors provide annual training to members of the SWAT team in the use of noise-flash diversionary devices. SWAT Team members must also complete an 80 hours basic SWAT school prior to deploying this type of device.
- Fiscal Impact:
 - Approximately \$2,000 annually. The cost includes the purchase of replacement devices.
- Expected Life Span:
 - Until deployed or a maximum of 5 years
- Purpose/Authorized Use:
 - Noise-flash diversionary devices produce a loud "bang" with a brilliant white light to cause short-term physiological/psychological sensory deprivation in order to allow law enforcement members a tactical advantage during critical incidents such as high risk search warrants, arrests of armed and violent suspects, and hostage rescue.
- Description / Quantity / Purchase Cost / Capabilities:
 - **Defense Technology Low Roll II Distraction Device**
 - Quantity: 24
 - Approximately \$50 per unit
 - The 11-gram non-reloadable, non-fragmenting, light and sound distraction device incorporates an M201A1 type fuse with steel hex design body to limit movement and rolling once deployed.
 - **Combined Tactical Systems Flash-Bang**
 - Quantity: 25
 - Approximately \$50 per unit
 - A non-bursting, non-fragmenting, light and sound distraction device that produces a single loud bang and flash of light. The patented design incorporates a porting system that eliminates movement of the body at detonation even if the top or bottom of the device should be in contact with a hard surface.
 - **Combined Tactical Systems Multi Flash-Bang**
 - Quantity: 11 - Expired
 - Approximately \$135 per unit
 - A non-bursting, non-fragmenting, less-lethal light and sound diversionary device that produces multiple loud bang sounds and flashes of light.
 - **Combined Tactical Systems Command Initiated Flash-Bang**
 - Quantity: 25 - Expired

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- Approximately \$45 per unit
- A non-bursting, non-fragmenting, light and sound diversionary device that incorporates an M201 type fuse. This device may be hand thrown or deployed with a flash-bang pole.
- **Royal Arms International 12 Gauge GB-82; Flash Bang Hard Rounds**
 - Quantity: 65 - Expired
 - Approximately \$50 per unit
 - For use with a 12 gauge shotgun round with cylinder smooth bore barrels only. Designed as a less lethal diversionary round that can breach solid wood doors, sliders and car windows.
- The Sheriff's Office does not use any other "explosive" breaching tools other than what is discussed above in the section titled, "Battering rams, slugs, and breaching apparatuses that are explosive in nature."

Chemical agents containing tear gas or OC, excluding standard, service-issued handheld pepper spray:

- Chemical Agent Canisters: Less-lethal canisters containing chemical agents designed to be an irritant to those exposed.
 - Legal and Procedural Rules
 - Chemical agents may only be used for official law enforcement purposes, and pursuant to Ventura County Sheriff's Office Policy 300 – Use of Force, Ventura County Sheriff's Office Policy 302 – Control Devices, Ventura County Sheriff's Policy 431 – First Amendment Assemblies, and Techniques, State and Federal law.
 - A supervisor must approve the deployment any chemical agent within a Detention facility other than the standard service issued hand-held pepper spray.
 - Only the SWAT team is authorized to deploy a chemical agent, other than the standard service issued hand-held pepper spray, in a patrol setting. SWAT Team members must also complete an 80 hours basic SWAT school prior to deploying this type chemical agent.
 - Training:
 - Sworn members utilizing chemical agents are trained in their use with formalized instruction, including a California POST certified chemical agent course and a California POST recertification course every three years.
 - Fiscal Impact:
 - Approximately \$2,000 annually; consisting of the cost to purchase replacement canisters.
 - Expected Life Span:
 - 5 years from the manufacturing date
 - Less-lethal tool used to compel violent/armed and barricaded suspects from structures and vehicles when the circumstances are too hazardous for deputies

Military Equipment

to enter. May also be used against members of riotous crowds to defend against a threat to life or serious bodily injury, or to bring an objectively dangerous and unlawful situation safely and effectively under control.

- Purpose/Authorized Use:
- Description / Quantity / Purchase Cost / Capabilities:

Combined Tactical Systems OC Chemical Agent Canisters

- Quantity: 30
- Approximately \$43 per unit
- A high volume continuous burn device that expels its payload in 20-40 seconds through multiple emission ports. This launchable device that dispels smoke and oleoresin capsicum (OC) chemical agent is specifically for outdoor use and not to be depoloyed on rooftops, in crawl spaces or indoors due to potential fire hazard.

Combined Tactical Systems CS Chemical Agent Canisters

- Quantity: 32
- Approximately \$30 per unit
- A high volume continuous burn device that expels its payload in approximately 20-40 seconds through gas ports. This launchable device that dispels smoke and 2-chlorobenzalmalononitrile (CS) chemical agent is specifically for outdoor use and should not be deployed on rooftops, in crawl spaces or indoors due to potential fire hazard.

Defense Technology OC Chemical Agent Canisters

- Quantity: 5
- Approximately \$30 per unit
- Designed specifically for outdoor use in crowd control situations with a high volume continuous burn that expels its payload in approximately 20-40 seconds through four gas ports located on top of the canister. The volume of the smoke and agent is vast and obtrusive. This launchable device is 6.0 in. by 2.35 in. and holds approximately .88 oz. of oleoresin capsicum (OC) chemical agent.

Defense Technology CS Chemical Agent Canisters

- Quantity: 12 - Expired
- Approximately \$25 per unit
- A high volume continuous burn device that expels its payload in 20-40 seconds through multiple emission ports. This launchable device that dispels smoke, oleoresin capsicum (OC), and 2-chlorobenzalmalononitrile (CS) chemical agents is specifically for outdoor use and not to be deployed on rooftops, in crawl spaces or indoors due to potential fire hazard.

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- **40MM Launching Cup Attachment:** Launching cups that attach to a 12-gauge less lethal shotgun in order to allow the launch of chemical agent or smoke canisters from a distance.
 - Legal and Procedural Rules
 - It is the policy of the Sheriff's Office to utilize chemical agent launching cups for official law enforcement purposes, and pursuant to the Ventura County Sheriff's Office Policy 300 – Use of Force, Ventura County Sheriff's Office Policy 302 – Control Devices and Techniques, Ventura County Sheriff's Policy 431 – First Amendment Assemblies, State and Federal law.
 - Only trained members of the SWAT team may deploy a chemical agent through a launching cup.
 - Training:
 - Sworn members utilizing 40mm launcher and rounds are trained in their use with formalized instruction.
 - Fiscal Impact:
 - No annual maintenance
 - Expected Life Span:
 - Approximately 25 years
 - Purpose/Authorized Use:
 - Less lethal tool used to compel violent/armed and barricaded suspects from structures and vehicles when the circumstances are too hazardous for deputies to enter. May also be used to compel large, violent and riotous crowds to disperse from an outdoor area.
 - Description / Quantity / Purchase Cost / Capabilities:
 - **Remington 12 gauge 40mm Launching Cup**
 - Quantity: 1
 - Approximately \$300
 - The launching cup is capable of being attached to most 12-gauge shotguns and launching canisters of chemical agents or smoke.
- **PepperBall Launcher:** A non-lethal device that discharges small hard plastic projectiles containing a powder chemical agent.
 - Legal and Procedural Rules
 - It is the policy of the Sheriff's Office to utilize pepperball launchers and projectiles only for official law enforcement purposes, and pursuant to the Ventura County Sheriff's Office Policy 300 – Use of Force, Policy 302 – Control Devices and Techniques, Ventura County Sheriff's Policy 431 – First Amendment Assemblies, State and Federal law.

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- Training:
 - Sworn members utilizing the pepperball launchers are trained in their use with formalized instruction. In addition, sworn members utilizing chemical agents receive California POST certified training and recertification course every three years.
- Fiscal Impact:
 - Approximately \$1,000 annually; primarily consisting of the cost to repair launchers and purchase of additional projectiles.
- Expected Life Span:
 - Pepperball Launchers: Approximately 20 years
 - Pepperball Projectiles: Approximately 3 years
- Purpose/Authorized Use:
 - Less lethal tool used from a distance in order to compel potentially violent suspects to cease dangerous actions and comply with arrest. May also be used against specific members of riotous crowds to defend against a threat to life or serious bodily injury, or to bring an objectively dangerous and unlawful situation safely and effectively under control.
- Description / Quantity / Purchase Cost / Capabilities:
 - **VKS Pepperball Launcher**
 - Quantity: 9
 - Approximately \$900 per unit
 - The Variable Kinetic System (VKS) is a compressed-air powered launcher designed to fire non-lethal pepperball projectiles. It features a dual feed system that offers the ability to quickly switch between hopper mode and magazine mode for optimum versatility.
 - **FTC Pepperball Launcher**
 - Quantity: 3
 - Approximately \$600 per unit
 - The FTC is a high-capacity, semi-automatic launcher that uses compressed-air to fire non-lethal pepperball projectiles. It features a hopper that can hold up to 180 rounds and a flexible air source configuration.
 - **Pepperball LIVE Projectile**
 - Quantity: Approximately 1211
 - Approximately \$2 per projectile
 - The basic Pepperball projectile is designed for direct impact and contains 2% PAVA powder.
 - **Pepperball VXR LIVE Projectile**
 - Quantity: Approximately 686
 - Approximately \$3 per projectile

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- The Pepperball VXR projectile is designed for direct impact and contains a more concentrated 5% PAVA powder.

Pepperball Green Marking Projectile

- Quantity: 1,875
- Approximately \$2 per projectile
- The projectile is designed for direct impact and contains a green paint solution that can mark suspects for later apprehension and/or doors, openings, or objects for identification.

TASER® Shockwave, microwave weapons, water cannons, and long-range acoustic devices (LRADs):

- The Sheriff's Office currently has one remotely operated water monitor attached to the Sheriff's Medcat Armored Rescue Vehicle. The primary purpose of this equipment is to enhance the fire suppression capabilities of the Sheriff's Office and the Fire Department in hazardous and high-risk environments. This equipment will only be used for fire related emergencies.
 - Legal and Procedural Rules
 - This remotely operated water monitor will not be not be used for crowd control or during incidents of civil unrest. It's purpose is strictly related to protecting lives during fire related emergencies.
 - Training:
 - Sworn members on the Sheriff's SWAT and TRT Teams have trained using this device with the Fire Department during their scheduled monthly training.
 - Fiscal Impact:
 - This equipment was given to us by the Fire Department with no cost to the Sheriff's Office.
 - Expected Life Span:
 - 20 years
 - Purpose/Authorized Use:
 - To be able to access areas of rough terrain in an expedient manner, suppress fire, and save lives.
 - Description / Quantity / Purchase Cost / Capabilities:
 - **Remotely Operated Water Monitor**
 - Quantity: 1
 - This equipment was given to the Sheriff's Office by the Fire Department at no cost.
 - The primary purpose of this equipment is to enhance the fire suppression capabilities of the Sheriff's Office and the Fire Department in hazardous and high-risk environments.

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

Kinetic energy weapons and munitions:

- **40 MM Launchers and Rounds:** A shoulder mounted launcher designed as a less lethal tool to launch impact rounds and rounds containing chemical agents.
 - Legal and Procedural Rules
 - It is the policy of the Sheriff's Office to utilize 40mm launchers and 40mm rounds only for official law enforcement purposes, and pursuant to the Ventura County Sheriff's Office Policy 300 – Use of Force, Policy 302 – Control Devices and Techniques, Ventura County Sheriff's Policy 431 – First Amendment Assemblies, State and Federal law.
 - Training:
 - Sworn members utilizing 40mm launcher and rounds are trained in their use with formalized instruction. In addition, sworn members utilizing chemical agents receive California POST certified training and recertification course every three years.
 - Fiscal Impact:
 - 40mm Launchers: Approximately \$125 annually; primarily consisting of repair/part replacement.
 - 40mm Rounds: Approximately \$2,000 annually; consisting of the purchase of replacement rounds.
 - Expected Life Span:
 - 40mm Launchers: Approximately 15 years
 - 40mm Rounds: Approximately 5 years
 - Purpose/Authorized Use:
 - Less lethal tools are designed to be used from a distance in order to compel potentially violent suspects to cease dangerous actions and comply with arrest.
 - Description / Quantity / Purchase Cost / Capabilities:
 - **Defense Technology SL1 40mm Launcher**
 - Quantity: 20
 - \$1000 per unit
 - The SL1 is a tactical single shot launcher that fires 40mm less lethal rounds, up to 4.8" in cartridge length.
 - **Defense Technology 40mm Tactical 4-Shot Launcher**
 - Quantity: 6
 - \$3000 per unit
 - The 40mm Tactical 40-Shot Launcher is low-profile and lightweight, providing multi-shot capability in an easy to carry launcher. It features an expandable stock, adjustable front grip, and an enhanced drive mechanism for positive cylinder alignment.
 - **Defense Technology LMT 40mm Launcher**

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- Quantity: 2
- \$1600 per unit
- The LMT is a tactical single shot launcher, with a collapsible stock and adjustable front grip. It fires standard 40mm less lethal ammunition, up to 4.8" in cartridge length.
- **Penn Arms SL6 40mm Multi-Launcher**
 - Quantity: 2
 - \$3300 per unit
 - The SL6 is a 40mm spring-advanced magazine drum launcher with a six-shot capacity and a rifled barrel.
- **Defense Technology 40mm Impact Sponge Rounds**
 - Quantity: 294
 - Approximately \$25 per unit
 - The 40mm Impact Sponge is a point-of-aim, point-of-impact direct-fire round. This lightweight, high-speed projectile consisting of a plastic body and sponge nose is spin stabilized through the incorporated rifled collar and the launcher's rifled barrel. The round utilizes smokeless powder as the propellant; therefore, making velocities extremely consistent.
- **Defense Technology 40mm Direct Impact OC Rounds**
 - Quantity: 110
 - Approximately \$30 per unit
 - The 40mm Direct Impact OC Round is a point-of-aim, point-of-impact direct-fire round. It contains a lightweight plastic and crushable foam nose that disperses approximately 5 grams of oleoresin capsicum (OC) upon impact. An excellent solution whether you need to incapacitate a single subject or control a crowd.
- **Defense Technology 40mm Direct Impact CS Rounds**
 - Quantity: 18 – 14 Expired
 - Approximately \$30 per unit
 - The 40mm Direct Impact CS Round is a point-of-aim, point-of-impact direct-fire round. It contains a lightweight plastic and crushable foam nose that disperses approximately 5 grams of 2-chlorobenzalmalononitrile (CS) upon impact. An excellent solution whether you need to incapacitate a single subject or control a crowd.
- **Defense Technology Ferret 40mm OC Powder Barricade Penetrating Projectile**
 - Quantity: 8 – 8 Expired
 - Approximately \$25 per unit
 - This Ferret 40mm Barricade Penetrating Round is filled with 4.1 grams of oleoresin capsicum (OC). It's a frangible projectile that

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

is spin stabilizing through barrel rifling. It is non-burning and designed to penetrate barriers (windows, hollow core doors, and wallboard) and upon impact the nose cone ruptures and releases the chemical agent.

- **Defense Technology Ferret 40mm CS Powder Barricade Penetrating Projectile**
 - Quantity: 2 – 1 Expired
 - Approximately \$25 per unit
 - This Ferret 40mm Barricade Penetrating Round is filled with 6.9 grams of 2-chlorobenzalmalononitrile (CS). It's a frangible projectile that is spin stabilizing through barrel rifling. It is non-burning and designed to penetrate barriers (windows, hollow core doors, and wallboard) and upon impact the nose cone ruptures and releases the chemical agent.
- **Defense Technology Stinger 40mm 60-Caliber Rubber Balls Round**
 - Quantity: 183 – 12 Expired
 - Approximately \$30 per unit
 - The Stinger 40mm 60-caliber round is most widely used as a crowd management tool by law enforcement and corrections personnel. It utilizes smokeless powder as the propellant to maintain consistent velocities and tight shot patterns. Each projectile contains approximately 18 rubber balls.
- **Defense Technology Rubber Stingball Grenade**
 - Quantity: 54
 - Approximately \$50 per unit
 - The Stinger Rubber Ball Grenade is a maximum effect device that delivers light, sound, and rubber pellets in a 50 foot radius.
- **Less Lethal Shotgun and Ammunition:** A shotgun used to deploy the less lethal 12-gauge Beanbag Round.
 - Legal and Procedural Rules
 - It is the policy of the Sheriff's Office to utilize less lethal shotgun and less lethal rounds only for official law enforcement purposes, and pursuant to the Ventura County Sheriff's Office Policy 300 – Use of Force, Ventura County Sheriff's Office Policy 302 – Control Devices and Techniques, Ventura County Sheriff's Office Policy 306 – Firearms and Qualifications, Ventura County Sheriff's Policy 431 – First Amendment Assemblies, State and Federal law.
 - Training:
 - Sworn members utilizing a less lethal shotgun are trained in their use with formalized instruction, including a California POST certified instruction course and annual range qualifications.
 - **Fiscal Impact:**

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- Approximately \$6,500 annually. The cost includes repair, part replacement and purchase of replacement beanbag rounds.
- Expected Life Span:
 - Remington 870 Less Lethal Shotgun: Approximately 25 years
 - Defense Technology Super-Sock Round: No listed expiration date
- Purpose/Authorized Use:
 - These less lethal tools may be used to compel potentially violent suspects to cease dangerous actions and comply with arrest. They may also be used to compel specific individuals in a large, violent and riotous crowd to disperse from an outdoor area.
- Description / Quantity / Purchase Cost / Capabilities:
 - **Remington 870 Less Lethal Shotgun**
 - Quantity: 113
 - Approximately \$400 per unit
 - The less lethal shotgun is used to deploy the 12-gauge Super-Sock Beanbag Round. The shotgun is an orange color to distinguish it at less lethal firearm.
 - **Defense Technology 12-Gauge Super-Sock Beanbag Round**
 - Quantity: 2,000
 - Approximately \$6 per box of ammunition
 - The Super-Sock beanbag round is a less lethal 12-gauge shotgun round made of a ballistic fiber bag filled with approximately 40 grams of lead shot that travels at a velocity of 270 to 290 feet per second. When deployed, it presents a consistent aerodynamic shape, delivering consistent and predictable performance that makes it a safe and effective round due to its accuracy and consistent transfer of kinetic energy to the target.
- **Simunition:** A firearm/munition designed to be used for training of high risk and force on force incidents.
 - Legal and Procedural Rules
 - Simunition firearms are only utilized for training in accordance with Sheriff's Office Policy 300 – Use of Force and Sheriff's Office Policy 302 – Control Devices and Techniques, State and Federal law.
 - Training:
 - Sworn members utilizing the simunitions are trained in their use with formalized instruction.
 - Fiscal Impact:
 - Approximately \$800 annually; primarily consisting of repair/ part replacement of simunition firearms and the purchase of simunition replacement rounds.
 - Expected Life Span:

Ventura County Sheriff's Office

Ventura County SO Policy Manual

Military Equipment

- Simunition firearms and bolt conversion: Approximately 15 years
- Simunition Training Rounds: 5 years
- Authorized Use:
 - Law enforcement members attending simunition training are provided with a safety briefing and safety equipment. In addition, assigned safety officers are present during each of the scenario exercises. The device and rounds may only be used while under the supervision of an instructor assigned to instruct the course.
- Purpose:
 - The items are used by law enforcement personnel for force on force training.
- Description / Quantity / Purchase Cost / Capabilities:
 - **Sig Sauer 9mm Simunition Handgun**
 - Quantity: 30
 - Approximately \$1400 per unit
 - The Simunition handgun allows the FX marking cartridge and SecuriBlank cartridges to be fired safely from a Sig Sauer 9mm handgun. The innovative and high-quality design produces realistic recoil and ensures the proper operation and cycling of the weapon so that it feels and shoots like a real handgun. The design also precludes the inadvertent chambering of live ammunition.
 - **Simunition Conversion Rifle Bolt**
 - Quantity: 55
 - Approximately \$285 per unit
 - The Simunition conversion kit allows the FX marking cartridge and SecuriBlank cartridges to be fired safely from the user's own rifle. The innovative and high-quality design produces realistic recoil and ensures the proper operation and cycling of the weapon so that it feels and shoots like a real rifle. The design also precludes the inadvertent chambering of live ammunition.
 - **Simunition Training Rounds**
 - Quantity: Approximately 14,000 rounds
 - Approximately \$300 for a box of 500 rounds
 - Simunition rounds are low speed marking projectiles that can be fired from a converted handgun or rifle. These non-lethal and non-toxic cartridges in calibers of 9mm and 5.56mm provide law enforcement with the most realistic training and non-lethal force-on-force training systems.
